AND ACCESSORIES

Ceiling Support Installation

Cathedral Ceiling Support Installation

Wall Support Installation

CRIMP ELBOW TEE CAP INCREASER REDUCER ADJUSTABLE FLUE STOPPER TRIM COLLAR

- Minimum clearance to combustible material is 18 inches.
- Can be reduced up to 50% by using a Stove Pipe Heat Shield or Stove Board.
- Stove Boards protect both floors and walls from heat and their modular design allows for multi-board installations.
- The crimped ends of the stove pipe and fittings must be directed towards the appliance.
- Each joint in the assembly must be joined with at least three self-tapping screws.
- Manufactured from 24-gauge Black Matt pre-painted scratch and chip-resistant steel.
